

Mohanad Barakat

Passport: A23833752 | **Work permit:** Egyptian | **Date of birth:** 12/05/2001 |

Place of birth: Portsaid, Egypt | **Nationality:** Egyptian | **Gender:** Male | **Phone number:**

(+20) 1100054278 (Mobile) | **Email address:** mohanad.barakat@mbai-group.com | **Website:**

www.mbai-group.com | **LinkedIn:** [mohanad barakat](#) | **Whatsapp Messenger:** +201100054278 |

Address: Madinaty B15, Cairo, Egypt (Home)

WORK EXPERIENCE

HUMAN DATA LEAD (AI PRE & POST TRAINING) – XAI – 15/04/2025 – 15/12/2025 – SAN FRANCISCO , UNITED STATES

- **Large-Scale Pre-training:** Engineered and optimized massive-scale pre-training runs for **Grok**, managing distributed training across high-performance GPU clusters to ensure model stability and architectural efficiency.
- **Post-training & Alignment:** Led Supervised Fine-Tuning (SFT) and alignment workflows to refine Grok's reasoning capabilities, factual accuracy, and unique conversational persona.
- **Reinforcement Learning:** Drove model performance using **RLHF** and advanced RL techniques (PPO/DPO) to optimize reward modeling and minimize hallucinations.
- **Prompt Engineering:** Architected sophisticated system-level prompts and multi-step reasoning (CoT) frameworks to enhance model utility and real-time response quality.
- **Data Engineering:** Developed high-throughput pipelines for data curation and synthetic data generation to improve model performance on complex logic and coding tasks.

AI TRAINER – OUTLIER AI – 10/07/2023 – 31/03/2025 – EGYPT

- Evaluate and rank AI-generated responses based on predefined criteria such as truthfulness, factuality, grammar, fluency, coherence, relevance, and completeness.
- Identify and categorize different types of errors and biases in AI responses, such as factual inaccuracies, logical fallacies, grammatical errors, and stylistic issues.
- Provide constructive feedback on AI-generated content to guide model improvement and identify areas for refinement.

REAL ESTATE SALES AGENTS – ELEMENTS REALSETATE – 01/01/2023 – 15/06/2023 – EGYPT

- Answer incoming calls from prospective buyers, sellers, renters, and other interested parties.
- Provide information about available properties, services offered by the real estate agency, and the local real estate market.
- Respond to inquiries about property listings, pricing, features, and neighborhood information.

EDUCATION AND TRAINING

10/09/2024 – CURRENT Lisbon, Portugal

BACHELOR'S DEGREE IN INFORMATION MANAGEMENT Universidade Nova De Lisboa

Website <https://www.unl.pt/en/>

10/09/2019 – 15/07/2020 Debrecen, Hungary

FOUNDATION PROGRAM IN MECHTRANICS ENGINEERING Debreceni Egyetem

Website <https://www.edu.unideb.hu/>

10/09/2013 – 16/06/2018 Dubai, United Arab Emirates

NEASC AMERICAN HIGHSCHOOL DIPLOMA Al Mawakeb School

Website <https://amsi.ae/>

LANGUAGE SKILLS

Mother tongue(s): **ARABIC**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1
HUNGARIAN	B1	B1	B1	B1	B1
FRENCH	B1	B2	B1	B1	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Microsoft Office | python | SAS Language | R | Machine Learning | Fast Learner | Independant | Versatile | Overcome Challenges

PROJECTS

10/09/2024 – 10/12/2024

Information Systems Project

This project involved a comprehensive study of a ride-hailing company, to develop a strategic plan to enhance its operations and increase its market share through the effective use of information systems. The project likely included in-depth research and analysis of the company's current business model, competitive landscape, technological infrastructure, and customer base. The resulting plan would recommend specific information systems and strategies to improve efficiency, attract more users, and expand Taxi Go's presence in the market.

HONOURS AND AWARDS

15/12/2017

ICDL Certificate – ICDL Global

During this course and certification, I gained practical computer skills across a range of topics, from basic computer concepts to more advanced applications. I developed competency in using various software, including word processing, spreadsheets, databases, and presentation software such as PowerPoint, Excel, and Access. This ICDL certification validates an individual's competency in using computers effectively, enhancing their employability and productivity in various personal and professional settings.

15/12/2023

CS50 Python – Harvard EDX

Write here the CS50's Introduction to Programming with Python is a course that teaches how to read and write code in Python, covering testing and debugging as well. The course is designed for students with or without prior programming experience. Students learn about functions, arguments, and return values; variables and types; conditionals and Boolean expressions; and loops. The course also covers how to handle exceptions, find and fix bugs, and write unit tests; use third-party libraries; validate and extract data with regular expressions; model real-world entities with classes description...

14/11/2023

CS50 Web Development – Harvard EDX

CS50's Web Programming with Python and JavaScript explores the design and implementation of web apps with Python, JavaScript, and SQL, using frameworks like Django, React, and Bootstrap. Topics include database design, scalability, security, and user experience.

● CERTIFICATIONS

AMIT, 15/01/2026

AI for Finance

- **Financial Data Analysis:** Mastered automated tools for processing complex financial datasets, generating technical reports, and performing predictive trend analysis.
- **AI Agent Development:** Architected and deployed specialized AI agents designed to automate financial workflows, including risk assessment and portfolio monitoring.
- **Financial Reporting Automation:** Integrated LLMs with financial tools to streamline the creation of balance sheets, cash flow statements, and quarterly earnings summaries.
- **Tool Integration:** Leveraged APIs and external libraries to connect AI models with real-time market data for dynamic financial decision-making.

Mode of learning: Project based
